About us

We believe success is putting safety first.

That's why we are on a mission to transform New Zealand's Health and Safety culture.

We stand at the forefront of shaping the nation's future workforce.

With a legacy of over 28 years, we have established ourselves as trusted industry leaders, setting the benchmark for excellence in workplace health and safety, transport licensing, rural and civil training.

Our commitment goes beyond training; we empower organisations to foster a culture of safety, ensuring workplaces are secure and ready for future challenges. Partner with us to elevate your organisation's capabilities and pave the way for sustainable growth.

What sets us apart and why 200,000 kiwi's have trained with us in the last three years;

- We combine the latest industry regulation with practical hands on and online training
- Over 200 courses on offer
- Bespoke consultancy, VOC, advisory and programme contextualisation
- 170,000+ unique organisations trust us to deliver their training, including over 200 secondary schools
- The connector of New Zealand's future – partnering with existing and future industry leaders, nonprofit organisations, Iwi, government and social organisations
- 80+ trainers with proven industry expertise
- Part of the Aspire2 Group New Zealand's largest Private Training Establishment

Training Solutions Nationwide.

Asbestos Courses

Asbestos Awareness Seminar — Duration: 1/2 Day (4 Hours)

If you or your team work in the construction industry or any sort of demolition or refurbishment then you will need to be aware of when and where you could be exposed to Asbestos.

Non unit standard

Asbestos Removal Class A — Duration: 1 Day (8 Hours)

This course provides learners with the knowledge and practical skills required to safely remove friable (Class A) asbestos-containing materials (ACM) and asbestos-contaminated debris under controlled conditions.

Unit Standard: 29766 Level 4 Credits 4

Remove friable Asbestos

Asbestos Removal Class B — Duration: 1 Day (8 Hours)

This course provides learners with the knowledge and practical skills required to safely remove non-friable (Class B) asbestos-containing materials (ACM) and asbestos-contaminated debris. Learners prepare removal work, identify asbestos hazards, establish asbestos removal areas, undertake non-friable asbestos removal, complete decontamination processes, manage asbestos waste, and complete required documentation in accordance with the Health and Safety at Work (Asbestos) Regulations 2016 and industry best practice.

Unit Standard: 29765	Level 4	Credits 3
Remove non-friable asbestos		

Demonstrate Knowledge of Asbestos — Duration: 1/2 Day (4 Hours)

This course provides learners with the knowledge required to identify asbestos-containing materials (ACMs), understand the health risks associated with asbestos exposure, recognise where asbestos may be found in workplaces and buildings, and follow appropriate procedures when asbestos is identified. Learners will develop an understanding of asbestos regulations, safe work practices, identification processes, reporting requirements, and asbestos management procedures applicable to their role.

Unit Standard: 4098	Level 4	Credits 6
Prepare for and conduct assessments and administration		

More Info

Assessor and Adult Education

Assessor Training — Duration: 1 Day (8 Hours)

People credited with this unit standard are able to: prepare for and conduct assessment; complete assessment administration; and review the assessment practice.

This course is delivered via a one-day workshop.

Unit Standard: 4098	Level 4	Credits 6
Prepare for and conduct assessments and administration		

Training Colleagues in the Workplace — Duration: 1 Day (8 Hours)

This course is suited for participants who are going to train and provide ongoing support to work colleagues in the workplace, more so in a one-on-one situation.

This course is delivered via a one-day workshop.

Unit Standard: 27565	Level 3	Credits 4
Train colleagues in the workplace		

Facilitate Learning Sessions — Duration: 1 Day (8 Hours)

This course develops the skills needed to facilitate engaging, learner-led training sessions for adult learners.

Unit Standard: 7097	Level 6	Credits 12
Facilitate learner-led interactive learning sessions for adult learners.		

Plan for Delivery of Learning Sessions for Adults — Duration: 1 Day (8 Hours)

This course equips adult educators and trainers with the skills to plan and deliver effective learning sessions.

Unit Standard: 7093	Level 4	Credits 10
Plan for facilitation of learning sessions for adults.		

More Info

Chemicals / Hazardous Substances

Certified Handler Preparation

Duration: Self paced online

This is intended to prepare students for their application to become a Certified Handler. It is specially designed for people required to deal specifically with highly hazardous substances.

Unit Standard: 31291 Level 5 Credits 6
Demonstrate knowledge of hazardous substances relevant to certified handlers

Comprehensive Hazardous Substances Management

Duration:2 Days (16 Hours)

This course builds the knowledge and practical skills needed to safely work with and manage hazardous substances in the workplace.

Unit Standard: 31290 Level 4 Credits 6
Demonstrate knowledge of safe management and potential adverse effects of hazardous substances in the workplace

Unit Standard: 31292 Level 3 Credits 2
Demonstrate knowledge of workplace procedures relating to hazardous substances

Unit Standard: 31293 Level 4 Credits 3
Demonstrate safe handling, storage, and disposal of hazardous substances in the workplace

Hazardous Substances Basics

Duration: Half Day (4 Hours)

Understand how to work safely with and follow procedures related to hazardous substances found in the workplace.

Unit Standard: 31292 Level 3 Credits 2
Demonstrate knowledge of workplace procedures relating to hazardous substances

Hazardous Substances in Agriculture — Duration: 1 Day (8 Hours)

Gain the essential skills to safely handle, store, and apply hazardous substances in agriculture while meeting New Zealand's regulatory requirements.

Unit Standard: 21563 Level 3 Credits 8

Describe hazard classification systems, and the safe and responsible use of agrichemicals

Unit Standard: 27215 Level 2 Credits 5

Prepare to apply and apply agrichemicals using hand held equipment

Hazardous Substances for Workers — Duration: 1 Day (8 Hours)

Understand how to work safely with and follow procedures related to hazardous substances found in the workplace.

Unit Standard: 31292 Level 3 Credits 2

Demonstrate knowledge of workplace procedures relating to hazardous substances

Hazardous Substances for Workers Refresher — Duration: 1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 31292.

Hazardous Substances Seminar — Duration: 1 Day (8 Hours)

Understand how to work safely with chemicals and other hazardous substances found in the workplace.

Non unit standard

Hazardous Substances Seminar - Practical — Duration: 1/2 Day (4 Hours)

Get a relevant workplace practical understanding and knowledge on how to deal with chemicals in the workplace at your site.

Non unit standard

Hazardous Substances for Managers and Supervisors — Duration:1 Day (8 Hours)

This Course is designed for those responsible for the management, storage, use, disposal and handling of hazardous substances on a workplace.

Unit Standard: 31290 Level 4 Credits 6

Demonstrate knowledge of safe management and potential adverse effects of hazardous substances in the workplace

Unit Standard: 31293 Level 4 Credits 3

Demonstrate safe handling, storage, and disposal of hazardous substances in the workplace

Hazardous Substances for Managers and Supervisors Refresher — Duration:1/2 Day (4 Hours)

Refresh the units that you already hold. Unit Standard 31290 and Unit Standard 31293.

Online Chemical Safety at Work Awareness — Duration: Self paced online

This online awareness course provides learners with foundational knowledge of hazardous substances in the workplace.

Non unit standard

Spill Management Practical Seminar — Duration: 1/2 Day (4 Hours)

Get a relevant workplace practical understanding and knowledge on how to deal with spills in the workplace.

Non unit standard

More Info

Confined Space and Gas Detection

Atmospheric Testing and Gas Detection — Duration: 1/2 Day (4 Hours)

Prepare yourself with the knowledge and technical skills to determine if a suitable atmosphere exists to conduct work safely.

Unit Standard: 25510 Level 3 Credits 4

Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely

Unit Standard: 3058 Level 4 Credits 5

Perform gas tests for energy and chemical plant

Breathing Apparatus Operational — Duration: 1 Day (8 Hours)

Use self-contained breathing apparatus to undertake operational duties in potentially harmful environments, such as ammonia, waste water or other hazardous atmospheres.

Unit Standard: 25044 Level 3 Credits 4

Wear and operate compressed air breathing apparatus in the workplace

Breathing Apparatus Operational Refresher — Duration: 1/2 Day (4 Hours)

Refresh Unit Standard 25044 that you already hold.

Breathing Apparatus Rescue — Duration: 2 Days (16 Hours)

Learn to wear and operate compressed air breathing apparatus (CABA).

Unit Standard: 25044 Level 3 Credits 4
Wear and operate compressed air breathing apparatus in the workplace

Unit Standard: 3272 Level 3 Credits 3
Wear and operate breathing apparatus in general emergencies

Confined Space Entrant Only — Duration: 1 Day (8 Hours

Acquire a comprehensive understanding of the hazards and controls used when working with confined spaces.

Unit Standard: 18426 Level 3 Credits 4
Demonstrate knowledge of hazards associated with confined spaces

Confined Space Entrant Only - Wine Industry — Duration: 1 Day (8 Hours

Acquire a comprehensive understanding of the hazards and controls used when working with confined spaces in the wine industry.

Unit Standard: 18426 Level 3 Credits 4
Demonstrate knowledge of hazards associated with confined spaces

Confined Space and Gas Detection — Duration: 2 Days (16 Hours)

Prepare yourself with the knowledge and technical skills to effectively plan, observe and safely enter a confined space.

Unit Standard: 17599 Level 3 Credits 4
Plan a confined space entry

Unit Standard: 18426 Level 3 Credits 4
Demonstrate knowledge of hazards associated with confined spaces

Unit Standard: 25510 Level 3 Credits 4
Operate an atmospheric testing device to determine a suitable work atmosphere exists

Optional Unit Standards

Unit Standard: 3058 Level 4 Credits 5
Perform gas tests for energy and chemical plant

Unit Standard: 19207 Level 3 Credits 6
Enter, work in and exit a confined space in the water industry

Unit Standard: 18037 Level 4 Credits 4
Plan a confined space entry in the electricity supply industry

Confined Space and Gas Detection Refresher — Duration: 1/2 Day (4 Hours)

Refresh the unit that you already hold:

Unit Standard 17599
Unit Standard 25510
Unit Standard 19207
Unit Standard 18426
Unit Standard 3058
Unit Standard 18037

Safety Observer — Duration: 1 Day (8 Hours

Understand the responsibilities of a Safety Observer, including specifically for, Hot Work, Confined Space Entries and Working at height

Unit Standard: 17596 Level 3 Credits 8
Demonstrate knowledge of safety observer responsibilities in the workplace.

More Info

Crane Training

Basic Craning Gantry

Duration: 1/2 Day (4 Hours)

This course is designed for workers new to gantry crane operation who want practical experience before completing full crane certification.

Non unit standard

Basic Craning Truck Loader Crane

Duration: 1/2 Day (4 Hours)

This course is designed for workers new to truck loader crane operation who want practical experience before completing full crane certification.

Non unit standard

Cab Controlled Gantry Crane

Duration: 1 Day (8 Hours)

Gain knowledge of the operation of, and hazards associated with, a cab-controlled gantry crane.

Unit Standard: 3790 Level 3 Credits 2

People credited with this unit standard are able to: – demonstrate knowledge of using a cab controlled gantry crane; – use a cab controlled gantry crane to lift and place regular loads; and – carry out daily and weekly operator maintenance of a cab controlled gantry crane.

Complex Loads

Duration: 1 Day (8 Hours)

This course is designed for people with a requirement to communicate with crane operators at an advanced level, such as with complex loads.

Unit Standard: 3801 Level 4 Credits 25

Prepare and sling complex loads for crane operations

Crawler Crane — Duration: 1 Day (8 Hours)

On course completion trainees will be able to apply theory and skills in lifting and placing loads with an overhead crawler crane

Unit Standard: 27676 Level 4 Credits 25

Configure a lattice boom track crawler crane, and lift and place regular and irregular loads

Demonstrate Knowledge of Crane Industry — Duration: 1/2 Day (4 Hours)

Gain a broad understanding of the crane industry and the operations involved with different types of cranes

Unit Standard: 3788 Level 3 Credits 4

Demonstrate knowledge of crane types, safe practices required in the crane industry

Dogman — Duration: 1 Day (8 Hours)

Gain a working knowledge of the requirements set by the Approved Code of Practice for Cranes to operate as a Dogman slinging loads

Unit Standard: 3789 Level 3 Credits 15

Sling varied regular loads and safely direct a crane during crane operations

Dogman Refresher — Duration: 1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 3789

Electric Hoist Seminar — Duration:1/2 Day (4 Hours)

This course will provide a comprehensive understanding of the legislation, regulations and codes of practice relating to electric hoist operations.

Non unit standard

Mini Crawler Crane

Duration: 1 Day (8 Hours)

Through this course, trainees will be able to apply theory and skills in lifting and placing regular loads with a mini-crawler crane.

Unit Standard: 26505 Level 4 Credits 20

Configure and use a mini-crawler crane with outriggers to lift and place regular and irregular loads

Mobile Crane

Duration: 1 Day (8 Hours)

Through this course, trainees will be able to apply theory and skills in lifting and placing regular loads with a mobile crane.

Unit Standard: 3795 Level 4 Credits 25

Configure and position a mobile crane, and lift and place regular and irregular loads

Move and Place Loads Using Mobile plant

Duration: 1 Day (8 Hours)

Through this course, operators will understand and apply the principles of attaching, lifting, moving and placing loads using mobile plant.

Unit Standard: 31245 Level 3 Credits 5

Plan for and lift, move, and place loads using mobile plant, in infrastructure works environments

Non-Slewing Articulated Crane

Duration: 1 Day (8 Hours)

Through this course, trainees will be able to apply theory and skills in lifting and placing regular loads with a non-slewing crane

Unit Standard: 24511 Level 4 Credits 15

Configure a non-slewing articulated crane, and lift and place regular and irregular loads

Overhead Gantry Crane — Duration: 1 Day (8 Hours)

Through this course, trainees wil develop their overall knowledge and understanding of gantry crane operations and test their skills for carrying out daily checks, servicing and operating gantry cranes,

Unit Standard: 3800 Level 3 Credits 10

Operate a radio remote or pendant controlled overhead crane and lift and place regular loads

Overhead Gantry Crane Refresher — Duration: 1/2 Day (4 Hours)

Refresh the units that you already hold. Unit Standard 3800

Operate a Telehandler — Duration: 1 Day (8 Hours)

This is a combined course option for bucket attachment and forklift endorsement for the fork attachment

Unit Standard: 23637 Level 3 Credits 10

Operate a telehandler

Sling Regular Loads Safely — Duration: 1 Day (8 Hours)

Gain a working knowledge of how to sling loads safely as well as a broad understanding of relevant crane regulations

Unit Standard: 30072 Level 3 Credits 14

Demonstrate and apply knowledge of slinging regular loads safely

Straddle Carrier — Duration: 1 Day (8 Hours)

The course is designed to ensure your operator has sound knowledge of the safe operation of a Staddle Carrier

Unit Standard: 17161 Level 3 Credits 6

Operate a straddle carrier

Tower Crane — Duration: 1 Day (8 Hours)

This course teaches application of theory and skills in lifting regular loads with a tower crane

Unit Standard: 3794 Level 4 Credits 15

Lift and place regular loads with a tower crane

Truck Loader Crane (HIAB) Initial & Refresher — Duration: 1 Day (8 Hours)

This course will provide you with the skills and understanding of the requirements to safely operate a truck loader crane within the parameters outlined in the Approved Code of Practice for Cranes.

Unit Standard: 16617 Level 3 Credits 15

Use a truck loader crane to lift and place loads

More Info

Fire and Emergency

Fire and Emergency Warden

Duration: 1/2 Day (4 Hours)

This course will give you an in-depth understanding of the duties of a Fire and Emergency Warden in accordance with the law

Unit Standard: 18408 Level 3 Credits 3
Demonstrate knowledge of fire and emergency warden duties in the workplace

Fire and Emergency Warden Refresher

Duration: 2 Hours

Refresh the units that you already hold. Unit Standard 18408

Fire Extinguisher

Duration: 1/2 Day (4 Hours)

Gain knowledge in the operation of different types of fire extinguishers and fire suppression techniques used in the workplace.

Unit Standard: 3271 Level 2 Credits 1
Suppress fire with hand extinguishers and fixed hose reels

Unit Standard: 4647 Level 2 Credits 1
Explain principles of fire science

Fire Extinguisher Refresher

Duration: 2 Hours

Refresh the units that you already hold. Unit Standard 3271and Unit Standard 4647

Fire Extinguisher Short Course

Duration: 3 Hours

Through this course, trainees will be able to evaluate fire scenarios and take the appropriate corrective action to stay safe.

Unit Standard: 3271 Level 2 Credits 1
Suppress fire with hand extinguishers and fixed hose reels

More Info

First Aid

Bleed Response & Defibrillation — Duration: 1/2 Day (4 Hours)

This course will prepare trainees with the knowledge to recognise and control different types of bleeding. Additionally, the course will cover the crucial role of early defibrillation in saving lives during cardiac emergencies.

Non unit standard

First Aid Level 1 - Basic (Face to Face) — Duration: 1 Day (8 Hours)

Gain the knowledge and abilities necessary to perform basic life support (CPR) and administer first aid to persons feeling the initial impact of bleeds, burns, fractures, soft tissue injuries, and poisons.

Unit Standard: 6402 Provide Basic Life Support	Level 1	Credits 1
Unit Standard: 6401 Provide First Aid	Level 2	Credits 1

First Aid Level 1 - Basic Refresher (Face to Face) — Duration: 6 Hours

Refresh the units that you already hold. Unit Standard 6402 and Unit Standard 6401.

First Aid Level 1 - Basic (Blended Learning) — Duration: Online + 4 Hr Practical

Gain the knowledge and abilities necessary to perform basic life support (CPR) and administer first aid to persons feeling the initial impact of bleeds, burns, fractures, soft tissue injuries, and poisons.

Unit Standard: 6402 Provide Basic Life Support	Level 1	Credits 1
Unit Standard: 6401 Provide First Aid	Level 2	Credits 1

First Aid Level 1 - Basic Refresher (Blended) Duration: Online + 4 Hr Practical

Refresh the units that you already hold. Unit Standard 6402 and Unit Standard 6401.

First Aid Level 2 - Advanced (Face to Face) Duration: 1.5 Days (12 Hours)

This course will provide trainees with the skill and knowledge to recognise emergencies, and comfortably be a first responder.

Unit Standard: 6402	Level 1	Credits 1
Provide Basic Life Support		

Unit Standard: 6401	Level 2	Credits 1
Provide First Aid		

Unit Standard: 6400	Level 3	Credits 2
Manage First Aid in an emergency situation.		

First Aid Level 2 - Advanced Refresher (Face to Face) Duration: 1 Day (8 Hours)

Refresh the units that you already hold. Units 6402, 6401, and 6400.

First Aid Level 2 - Advanced (Blended Learning) Duration: Online + 8 Hr Practical

This course will provide trainees with the skill and knowledge to recognise emergencies, and comfortably be a first responder.

Unit Standard: 6402	Level 1	Credits 1
Provide Basic Life Support		

Unit Standard: 6401	Level 2	Credits 1
Provide First Aid		

Unit Standard: 6400	Level 3	Credits 2
Manage First Aid in an emergency situation.		

First Aid Level 2 - Advanced Refresher (Blended) Duration: Online + 4 Hr Practical

Refresh the units that you already hold. Units 6402, 6401, and 6400.

More Info

Forklift

Forklift 'F' Endorsement — Duration: 1/2 Day (4 hours)

This course is for certified forklift operators who have been driving forklifts on private property and wish to apply for their "F' Endorsement to value add their driver's license and legally drive on NZ roads.

Unit Standard: 18496 Level 3 Credits 2
Drivers License Endorsements
Demonstrate knowledge and skills for the driving of a forklift on a road for endorsement F (forklifts)

Forklift Operator — Duration: 1 Day (8 Hours)

Develop a clear understanding of the safety aspect relating to driving a forklift, and learn about performing pre-operational inspections, reporting maintenance, and park and shut down procedures.

Unit Standard: 10851 Level 3 Credits 7
Operate a powered industrial lift truck (forklift)

Forklift Operator and 'F' Endorsement — Duration: 1 Day (8 Hours)

Get a relevant workplace practical understanding and knowledge on how to deal with chemicals in the workplace at your site.

Unit Standard: 10851 Level 3 Credits 7
Demonstrate knowledge of safe management and potential adverse effects of hazardous substances in the workplace

Unit Standard: 18496 Level 3 Credits 2
Drivers License Endorsements
Demonstrate knowledge and skills for the driving of a forklift on a road for endorsement F (forklifts)

Forklift Operator Refresher

Duration:1 Day (6 Hours)

Refresh the units that you already hold. Unit Standard 10851

Forklift with Attachments

Duration:1/2 Day (4 Hours)

Demonstrate knowledge of the safe operation, prepare to operate and operate and shut down a forklift with attachments

Unit Standard: 10852 Level 3	Credits 3
Operate a powered industrial lift truck (forklift) fitted with attachments	

Forklift with Mounted Safety Platform

Duration: 1/2 Day (4 Hours)

This course combines both practical and theory training to ensure the safety of your team within the operation of a forklift mounted safety platform.

Unit Standard: 18409 Level 3	Credits 4
Use a forklift mounted safety platform in the workplace	

More Info

Health, Safety and Wellbeing

Accident and Event Investigation

Duration: 1 Day (8 Hours)

Gain the knowledge to effectively report and investigate accidents and incidents, as well as putting in place the processes and procedures to prevent future events.

Unit Standard: 17601 Level 4 Credits 6

Produce an occupational health and safety incident investigation

Apply Safe Work Practices

Duration: 2-4 Hours

Gain the tools to complete relevant documentation, communicate effectively and manage corrective actions when necessary.

Unit Standard: 17593 Level 2 Credits 4

Apply safe work practices in the workplace

Construction Site Access

Duration: 1/2 Day (4 Hours)

This course will give trainees effective training to safely enter a construction worksite.

Unit Standard: 21209 Level 2 Credits 4

Demonstrate knowledge of and carry out health and safety procedures for a building construction site

Contractor Health and Safety Management

Duration: 1 Day (8 Hours)

This course teaches the legislative and organisational health and safety requirements for engaging contractors to perform work on site

Unit Standard: 17595 Level 4 Credits 8

Explain health and safety management requirements for contractors working on site

Coordinated Incident Management System (CIMS) — Duration:1 Day (8 Hours)

The course covers the roles and principals, functions and structures and the terms used in the CIMS framework.

Unit Standard: 32158 Level 3 Credits 2

Demonstrate basic knowledge of New Zealand's Co-ordinated Incident Management System

Discomfort, Pain and Injury — Duration:1 Day (8 Hours)

This course will support anyone that is involved in or responsible for the prevention and management of discomfort, pain and injury within your organisation.

Unit Standard: 17591 Level 3 Credits 8

Demonstrate knowledge of the prevention and management of Discomfort, Pain and Injury (DPI) in the workplace

Hazard & Risk Management — Duration: 1 Day (8 Hours)

This course will give you the knowledge and skills required to effectively assess the level of risk associated with workplace hazards.

Unit Standard: 30265 Level 3 Credits 8

Apply health and safety risk assessment to a job role

Unit Standard: 497 Level 1 Credits 3

Demonstrate knowledge of workplace health and safety requirements

Hazard & Risk Management Refresher — Duration: 1/2 Day (4 Hours)

This online course will refresh the units that you already hold. Unit Standard 30265 & 497.

Hazard & Risk Management, PR & PI Refresher — Duration: 1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 17588, 17590 & 30265.

Health and Safety at Work Seminar — Duration:1/2 Day (4 Hours)

The seminar provides a foundation for atendees to create a plan for addressing improvements and change within their organisation, ensuring compliance with the Act, as well as reviewing latest case studies to demonstrate commercial risk.

Non unit standard

Health and Safety Board & Management Overview — Duration: 2 Hours

Gain a general understanding of the duties and responsibilities of the Board and Management teams in relation to the Health and Safety at Work Act.

Non unit standard

Health and Safety Board & Management Seminar — Duration:1/2 Day (4 Hours)

Gain clarity and an in-depth understanding of the duties and responsibilities of the Board and Management teams in relation to the Health and Safety at Work Act.

Non unit standard

Health and Safety Check — Duration: 2 Hours

A comprehensive Health and Safety Check of the applicants site or workplace.

Non unit standard

Health and Safety Committee — Duration:1 Day (8 Hours)

Effectively develop a committee which encourages worker engagement, participation and representation, to manage health and safety in your organisation

Unit Standard: 30433 Level 3 Credits 2

Describe the role and function of a health and safety committee in a New Zealand workplace.

Health and Safety Leadership — Duration:1 Day (8 Hours)

Health and Safety Leadership course is designed for managers and supervisors who have day to day responsibility for people, work, and workplace risk.

Non unit standard

Health and Safety Legislation — Duration:1/2 Day (4 Hours)

Learn about the key roles and responsibilities of Health and Safety Representatives, as well as Health and Safety Committee members within a workplace.

Unit Standard: 30264 Level 3 Credits 3

Describe duties, rights, representation and the regulator in terms of New Zealand health and safety legislation

Health and Safety Representative: Initial — Duration: 1 Day (8 Hours)

This course will provide Health & Safety Representatives (HSR's) with the knowledge and skills to address issues raised by workers and manage them to the satisfaction of stakeholders

Unit Standard: 29315 Level 3 Credits 2

Describe the role and functions of the health and safety representative in a New Zealand workplace

Health and Safety Representative Stage 1 — Duration: 2 Days (16 Hours)

This course will give trainees an understanding of the hearing mechanism and the causes of hearing impairment.

Unit Standard: 30264 Level 3 Credits 3

Describe duties, rights, representation and the regulator in terms of New Zealand health and safety legislation

Unit Standard: 29315 Level 2 Credits 3

Describe the role and functions of the Health and Safety Representative in a New Zealand workplace

Health and Safety Representative Stage 2 — Duration: 2 Days (16 Hours)

This course will give trainees an understanding of the hearing mechanism and the causes of hearing impairment.

Unit Standard: 30265 Level 3 Credits 8

Apply health and safety risk assessment to a job role

Unit Standard: 17601 Level 4 Credits 6

Produce an occupational health and safety incident investigation

Unit Standard: 497 Level 1 Credits 3

Demonstrate knowledge of workplace health and safety requirements

Health and Safety Representative Stage 3 — Duration: 1 Day (8 Hours)

This course will provide Health & Safety Representatives (HSR's) with the knowledge and skills to address issues raised by workers and manage them to the satisfaction of stakeholders

Unit Standard: 30266 Level 3 Credits 6

Demonstrate knowledge of workplace health and safety culture and practices

Hearing Conservation — Duration:1/2 Day (4 Hours)

This course will give trainees an understanding of the hearing mechanism and the causes of hearing impairment.

Unit Standard: 17594 Level 3 Credits 3

Demonstrate knowledge of hearing conservation in the workplace

Isolations

Duration:1/2 Day (4 Hours)

This course will give the necessary knowledge to identify when you need to apply isolation procedures and how to lockout or reinstate machinery.

Unit Standard: 25043 Level 3 Credits 4
Lockout and reinstate machinery in the workplace

Manual Handling Early Childhood Care

Duration:1/2 Day (4 Hours)

Learn to apply effective lifting and moving techniques that will relate directly to your work activities and gain awareness and knowledge for combating back and musculoskeletal injuries.

Unit Standard: 17592 Level 3 Credits 4
Identify the causes of back injury and methods to prevent back injuries in the workplace.

Power Tool Practical Seminar

Duration: 1 Day (8 Hours)

This course provides practical, risk-based guidance for the safe setup, initial running, and operation of common power tools in the workplace.

Unit Standard: 17592 Level 3 Credits 4
Identify the causes of back injury and methods to prevent back injuries in the workplace.

Prevention of Back Injury

Duration:1/2 Day (4 Hours)

Learn to apply effective lifting and moving techniques that will relate directly to your work activities and gain awareness and knowledge for combating back and musculoskeletal injuries.

Unit Standard: 17592 Level 3 Credits 4
Identify the causes of back injury and methods to prevent back injuries in the workplace.

Manual Handling & Prevention of Back Injury — Duration:1 Day (8 Hours)

Develop the knowledge and skills to safely lift, move, and handle objects while preventing back injuries in the workplace.

Unit Standard: 17592 Level 3 Credits 4
Identify the causes of back injury and methods to prevent back injuries in the workplace.

Unit Standard: 17459 Level 3 Credits 3
Demonstrate and apply knowledge of safe manual handling practices in the workplace.

Marae Health and Safety — Duration: 6 Hours

This seminar will help identify relevant legislation that may affect the Marae, including the difference between a volunteer worker, a volunteer association and the responsibilities and duties of a PCBU

Non unit standard

PCBU Health & Safety Awareness Online — Duration: Online

Strategies to Tame Stress is an online course that teaches you how to manage stress in healthy and practical ways.

Non unit standard

Strategies for Taming Stress - Awareness — Duration: Online

The goal of the training is to provide clear and comprehensive knowledge about the subject matter, which is the HSWA 2015

Non unit standard

Workplace Ergonomics Awareness — Duration: Online

This eLearning course introduces the essentials of workplace ergonomics, helping you create a healthier and more comfortable work environment.

Non unit standard

Workplace Health & Safety Culture — Duration: 1 Day (8 Hours)

This course will provide you with the ability to describe health and safety work practices in the workplace

Unit Standard: 30266 Level 3 Credits 6

Demonstrate knowledge of workplace health and safety culture, and practices

Workplace Health and Safety — Duration:1/2 Day (4 Hours)

Gain a comprehensive understanding of the principal systems including, but not limited to, emergency procedures, worker participation and engagement and hazard reporting.

Unit Standard: 497 Level 1 Credits 3

Demonstrate knowledge of workplace health and safety requirements

Workplace Safety Signs Online — Duration:Online

In this interactive eLearning training, you will learn about workplace safety signage, the different types and colours of safety signage, and what they all mean.

Non unit standard

Heights

Heights Rescue

Duration: 1 Day (8 Hours)

This course will provide trainees with the skills to identify the correct equipment, carry out pre-use checks and learn how to use the harness safely in conjunction with other height safety equipment.

Unit Standard: 23232 Level 4 Credits 5

Prepare an emergency rescue plan and perform a rescue to recover a suspended individual after a fall in a work context.

Height Safety Advanced (2 Day Comprehensive)

Duration: 2 Days (16 Hours)

This course will guide you through the selection and inspection of various fall arrest systems and relevant ropes and knots.

Unit Standard: 15757 Level 3 Credits 4

Use, install and disestablish temporary proprietary fall arrest systems when working at height

Unit Standard: 23229 Level 3 Credits 4

Use safety harness system when working at height

Optional Additional Unit Standards

Unit Standard: 17600 Level 3 Credits 3

Explain safe work practices for working at heights

Height Safety Advanced (1 Day)

Duration: 1 Day (8 Hours)

This course will guide you through the selection and inspection of various fall arrest systems and relevant ropes and knots.

Unit Standard: 15757 Level 3 Credits 4

Use, install and disestablish temporary proprietary fall arrest systems when working at height

Optional Additional Unit Standards

Unit Standard: 17600 Level 3 Credits 3

Explain safe work practices for working at heights

Height Safety Equipment Inspection — Duration:1/2 Day (4 Hours)

This course will give trainees the skills required to identify, inspect and maintain height safety equipment.

Unit Standard: 19359 Level 3 Credits 3
Inspect and maintain height safety equipment

Height Safety Equipment in the Workplace — Duration:1 Day (8 Hours)

This course will guide you through the selection and use of different types of fall arrest equipment.

Unit Standard: 25045 Level 3 Credits 4
Employ height safety equipment in the workplace.

Optional Additional Unit Standards

Unit Standard: 17600 Level 3 Credits 3
Explain safe work practices for working at heights

Height Safety Introduction — Duration:1 Day (8 Hours)

This course will guide you through the selection and use of different types of fall arrest equipment.

Unit Standard: 23229 Level 3 Credits 4
Use a safety harness for personal fall prevention when working at height

Optional Additional Unit Standards

Unit Standard: 17600 Level 3 Credits 3
Explain safe work practices for working at heights

Height Safety Refresher — Duration:1/2 Day (4 Hours)

Refresh the units that you already hold. Unit Standard 23229, 25045, 15757, 17600, & 23232

Ladder Awareness Seminar — Duration:1/2 Day (4 Hours)

This course will give trainees the skills required to identify, inspect and maintain height safety equipment.

Non unit standard

Low Level Scaffold (Non-Notifiable) — Duration:1 Day (8 Hours)

This course will give trainees the skills required to identify, inspect and maintain height safety equipment.

Unit Standard: 9184 Level 3 Credits 5

Erect, dismantle and inspect non-notifiable prefabricated frame scaffolding up to five metres in height

Managing Risks when Working at Heights — Duration: 2 Days (16 Hours)

This course teaches risk management and the prevention of safety incidents and is critical in managing workplace safety under the Health and Safety at Work Act

Unit Standard: 23231 Level 3 Credits 5

Prepare and review a safety plan when fall prevention controls are required for individuals working at height

Online Heights Legislation — Duration: Online

Refresh the units that you already hold. Unit Standard 17590

Unit Standard: 17600 Level 3 Credits 3

Explain safe work practices for working at heights

More Info

Mobile Elevating Work Platform

Mobile Elevated Work Platform — Duration: 1 Day (8 Hours)

Understand the legal obligations, pre-check requirements and skills needed to safely operate a Mobile Elevating Work Platform

Unit Standard: 23966 Level 3 Credits 2
Describe types of elevating work platforms (EWPs) and legislative requirements for their use

Unit Standard: 23960 Level 3 Credits 3
Assess the worksite, prepare and operate a scissor lift

Unit Standard: 23961 Level 3 Credits 4
Assess the worksite, prepare and operate a truck-mounted EWP

Unit Standard: 23962 Level 4 Credits 5
Assess the worksite, prepare and operate a self-propelled boom lift

Unit Standard: 23963 Level 3 Credits 4
Assess the worksite, prepare and operate a trailer-mounted EWP

Unit Standard: 23964 Level 3 Credits 2
Assess the worksite, prepare and operate a vertical lift

Mobile Elevating Work Platform Refresher - Theory, Scissor Lift & Self Propelled Boom (Public Course) — Duration: 2 Hours

Refresh the units that you already hold. Unit Standard 23966, 23960 and 23962.

Mobile Elevating Work Platform Refresher (Company/Group Course) — Duration:1/2 Day (4 Hours)

Refresh the units that you already hold. Unit Standard 23966, 23960, 23961, 23962, 23963 and 23964

More Info

Permit to Work

Common Permit to Work

Duration: 1 Day (8 Hours)

Learn how to apply for and work under a written work permit within the Common Permit to Work System

Unit Standard: 17588 Level 3 Credits 4
Apply for, accept and carry out work according to a work permit in the workplace.

Common Permit to Work Refresher

Duration: Online

Refresh the units that you already hold. Unit Standard 17588

Permit Issuer

Duration: 1 Day (8 Hours)

This course will ensure you understand the essential components of the Permit to Work system, the mechanics of implementing the system and how to monitor its effectiveness in your role

Unit Standard: 17590 Level 3 Credits 6
Apply for, accept and carry out work according to a work permit in the workplace.

Permit Receiver

Duration: 1 Day (8 Hours)

This course will ensure you understand the essential components of the Permit to Work system, the mechanics of implementing the system and how to monitor its effectiveness in your role

Unit Standard: 17588 Level 3 Credits 4
Apply for, accept and carry out work according to a work permit in the workplace

Online Permit Issuer Refresher — Duration: Online

Refresh the units that you already hold. Unit Standard 17590

Online Permit Receiver Refresher — Duration: Online

Refresh the units that you already hold. Unit Standard 17588

More Info

Rural and Agriculture

4WD Training — Duration: 2 Days (16 Hours)

This course teaches 4WD operators the knowledge, skills, and attributes for all essential areas of the units of competency covered under the full "best practice" guidelines for 4WD operation in the workplace.

Unit Standard: 17976 Level 3 Credits 4
Demonstrate knowledge of operating a light 4WD vehicle in an offroad environment

Unit Standard: 17978 Level 3 Credits 4
Operate a light 4WD vehicle in an off-road environment

Optional Additional Unit Standards

Unit Standard: 20848 Level 3 Credits 4
Demonstrate knowledge of and skills for driving a light four wheel drive (4WD) on-road

Unit Standard: 17676 Level 2 Credits 3
Carry out a pre-start vehicle check on a vehicle or machine, and start and shut down the vehicle or machine

Chainsaw Safety

Duration: 1 Day or 2 Days depending on attendees

This course is aimed at producing a chainsaw operator who is able to safely demonstrate and apply the knowledge for chainsaw use.

Unit Standard: 6916 Level 2 Credits 5

Demonstrate knowledge of the rules for chainsaw use; describe rules relating to the transport and use of chainsaw fuel; and describe PPE and first aid requirements.

Unit Standard: 6917 Level 2 Credits 10

This unit standard is intended for those new to the forestry industry and chainsaw users in industries other than commercial forestry.

Chainsaw Safety Refresher

Duration:1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 6916 and 6917

Hazardous Substances in Agriculture

Duration:1 Day (8 Hours)

Learn to safely handle, store, and apply hazardous substances in agriculture while meeting New Zealand's regulatory requirements.

Unit Standard: 21563 Level 3 Credits 8

Describe hazard classification systems, and the safe and responsible use of agrichemicals

Unit Standard: 24556 Level 2 Credits 5

Prepare to apply and apply agrichemicals using hand held equipment

Light Utility Vehicle — Duration: 1 Day or 2 Days depending on attendees

The course is targeted specifically for operators of LUVs used in the workplace and teaches trainees to ride effectively and safely over varied terrain.

Unit Standard: 24553 Level 2 Credits 4

Operate a light utility vehicle (LUV) on flat terrain in the workplace under close supervision

Unit Standard: 24556 Level 2 Credits 3

Demonstrate knowledge of the safe operation of a light utility vehicle (LUV)

Unit Standard: 24558 Level 3 Credits 4

Operate a light utility vehicle (LUV) on rolling terrain under limited supervision

Unit Standard: 24560 Level 3 Credits 3

Operate a light utility vehicle (LUV) with trailed equipment under limited supervision

Unit Standard: 24562 Level 3 Credits 3

Operate a light utility vehicle (LUV) with mounted equipment or a load under limited supervision

Light Utility Vehicle Refresher — Duration:1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 24553, 24556, 24558, 24560 and 24562

Open Space Mower Operation — Duration: 1 Day (8 Hours)

This course teaches how to select and prepare mowing equipment and machinery, carry out worksite preparation and safety checks, operate a mower to mow reserves and roadside vegetation and carry out post-operational procedures.

Unit Standard: 19750 Level 4 Credits 15

Operate a mower for rural contracting

Quad Bike

Duration: 1 Day or 2 Days depending on attendees

The course is targeted specifically at quad bikes used in the workplace and teaches the trainee to ride effectively and safely over varied terrain.

Unit Standard: 24557 Level 2 Credits 3
Demonstrate knowledge of the safe operation of a quad bike

Unit Standard: 24554 Level 2 Credits 4
Operate a quad bike on flat terrain in the workplace under close supervision

Unit Standard: 24559 Level 3 Credits 4
Operate a quad bike on rolling terrain under limited supervision

Unit Standard: 24563 Level 3 Credits 3
Operate a quad bike with mounted equipment or load under limited supervision

Unit Standard: 24561 Level 3 Credits 4
Operate a quad bike with trailed equipment under limited supervision

Quad Bike Refresher

Duration:1 Day (8 Hours)

Refresh the units that you already hold. Unit Standard 24557, 24554, 24559, 24563 and 24561

Safe Tractor Operation — Duration: 2 Days (16 Hours)

This course teaches the knowledge, skills and attributes required for an individual to drive a tractor effectively and safely in varied terrain.

Unit Standard: 19044 Level 2 Credits 3

Demonstrate knowledge of the legal requirements and hazards associated with tractor use.

Unit Standard: 31913 Level 2 Credits 3

Operate a basic tractor on flat terrain under close supervision.

Optional Additional Unit Standards

Unit Standard: 24538 Level 3 Credits 4

Describe tractor stability and the dynamics of tractors and attached implements

Unit Standard: 24539 Level 3 Credits 4

Maintain and use a power take off (PTO) driven implement attached to a tractor under limited supervision

Unit Standard: 27604 Level 3 Credits 4

Operate a tractor with an attached implement on rolling terrain under limited supervision.

Unit Standard: 31914 Level 2 Credits 2

Attach and detach a power take off driven 3 point linkage mounted implement to a basic tractor under close supervision.

More Info

Schools

Schools Confined Space - Entrant Only

Duration: 1 Day (8 Hours)

Acquire a comprehensive understanding of the hazards and controls used when working with confined spaces.

Unit Standard: 18426 Level 3 Credits 4

Demonstrate knowledge of hazards associated with confined space

Schools Construction Site Access

Duration: 1/2 Day (4 Hours)

This course will give you effective training to safely enter a construction worksite.

Unit Standard: 21209 Level 2 Credits 4

Demonstrate knowledge of and carry out health and safety procedures for a building construction site

Schools Discomfort, Pain and Injury

Duration: 1 Day (8 Hours)

Ensure ongoing physical performance by understanding how the body functions and effective techniques to combat the risk of injury

Unit Standard: 17591 Level 3 Credits 8

Demonstrate knowledge of the prevention and management of Discomfort, Pain and Injury (DPI) in the workplace

Schools Harness Safety

Duration: 1/2 Day (4 Hours)

Understand how to work safely with and follow procedures related to hazardous substances found in the workplace.

Unit Standard: 23229 Level 3 Credits 4

Use safety harness system when working at height

Schools Essentials in Construction — Duration: 2 Days (16 Hours)

This course will give you an understanding of terminology/signage used on a construction site and how to complete a Risk assessment including JSAs to meet the requirements of the HSWA 2015

Unit Standard: 497 Level 1 Credits 3
Demonstrate knowledge of workplace health and safety requirements

Unit Standard: 30265 Level 3 Credits 8
Apply health and safety risk assessment to a job role

Unit Standard: 21209 Level 2 Credits 4
Demonstrate knowledge of and carry out health and safety procedures for a building construction site

Schools Essentials in Health and Safety — Duration: 2 Days (16 Hours)

Learn your roles and responsibilities as a worker, as well as how to complete a risk assessment and JSA.

Unit Standard: 497 Level 1 Credits 3
Demonstrate knowledge of workplace health and safety requirements

Unit Standard: 30265 Level 3 Credits 8
Apply health and safety risk assessment to a job role

Unit Standard: 19522 Level 2 Credits 4
Undertake job safety analysis

Schools Drugs and Alcohol Management — Duration: 1/2 Day (4 Hours)

Gain the knowledge and skills to effectively address drug and alcohol challenges, ensuring a safe and compliant workplace

Unit Standard: 22316 Level 3 Credits 4
Demonstrate knowledge of the management of drug and alcohol related problems in the workplace

Schools Fire and Emergency Warden

Duration: 1/2 Day (4 Hours)

Gain the knowledge and skills to carry out an effective fire and emergency plan

Unit Standard: 18408	Level 3	Credits 3
Demonstrate knowledge of fire and emergency warden duties in the workplace		

Schools Fire Extinguisher

Duration: 1/2 Day (4 Hours)

Gain knowledge in the operation of different types of fire extinguishers and fire suppression techniques used in the workplace.

Unit Standard: 3271	Level 2	Credits 1
Suppress fire with hand extinguishers and fixed hose reels		

Unit Standard: 4647	Level 2	Credits 1
Explain principles of fire science		

Schools Forklift Operator

Duration: 1 Day (8 Hours)

This course develops the skills, knowledge and confidence required to start up, operate and drive a forklift in a range of environmental conditions.

Unit Standard: 10851	Level 3	Credits 7
Operate a powered industrial lift truck (forklift)		

Schools Hazard and Risk Management

Duration: 1 Day (8 Hours)

This course will give you the skills to identify the difference between hazards and risks in the workplace or job role and carry out a risk assessment for specific workplace scenarios.

Unit Standard: 30265	Level 3	Credits 8
Apply health and safety risk assessment to a job role		

Schools Health and Safety — Duration: 1 Day (8 Hours)

Prepare yourself for future employment, with a comprehensive understanding of the Health and Safety at Work Act 2015 and the practical skills to apply these principles in the workplace

Unit Standard: 497	Level 1	Credits 3
Apply health and safety risk assessment to a job role		

Unit Standard: 19522 Level 3	Credits 3	
Undertake job safety analysis		

Schools Hearing Conservation — Duration: 1/2 Day (4 Hours)

Understand the Science of Sound and Equip Yourself with the right Hearing Protection for the job

Unit Standard: 17594	Level 3	Credits 3
Demonstrate knowledge of hearing conservation in the workplace		

Schools Hearing Conservation and Prevention of Back Injury — Duration: 1 Day (8 Hours)

Gain a valuable understanding of how to avoid back pain and hearing loss, two of the most common workplace injuries

Unit Standard: 17592	Level 3	Credits 4
Identify the causes of back injury and methods to prevent back injury's in the workplace		

Unit Standard: 17594	Level 3	Credits 3
Demonstrate knowledge of hearing conservation in the workplace		

Schools Height Safety Introduction — Duration: 1 Day (8 Hours)

Understand how to effectively use height safety and safety harness equipment

Unit Standard: 17600	Level 3	Credits 3
Explain safe work practices for working at heights		

Unit Standard: 23229	Level 3	Credits 4
Use a safety harness for personal fall prevention when working at height		

Schools Prevention of Back Injury — Duration: 1/2 Day (4 Hours)

Understand how the body functions and how to use the correct techniques to prevent back injury in the workplace.

Unit Standard: 17592	Level 3	Credits 4
Identify the causes of back injury and methods to prevent back injury's in the workplace		

Schools Risk Assessment — Duration: 1/2 Day (4 Hours)

Learn to identify potential hazards, accurately evaluate risks, and implement mitigation strategies according to regulatory requirements and industry best practices.

Unit Standard: 30265 Level 3	Credits 8
Apply health and safety risk assessment to a job role	

Schools Security (COA) Certificate of Approval — Duration: 3 Days (24 Hours)

Designed for individuals seeking to establish or enhance their career in the security industry, this course is essential for acquiring or renewing a COA licence in New Zealand.

Unit Standard: 27364 Level 2	Credits 4
Demonstrate knowledge of the security industry in the pre-employment context.	

Unit Standard: 27360 Level 3	Credits 4
Describe conflict management in a security context.	

Unit Standard: 27361 Level 3	Credits 4
Manage conflict situations in a security context.

Truck Licensing and Endorsements

Class 2 Truck Licence
(2 Day, must hold learners licence)

Duration: 2 Days (16 Hours)

A Class 2 license allows you to drive a vehicle up to 18,000kgs or a vehicle with two axles.

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17574 Level 3 Credits 7

Operate a rigid vehicle to meet the requirements for a full Class 2 driver licence

Class 2 Truck Licence (3 Day)

Duration: 3 Days (24 Hours)

A Class 2 license allows you to drive a vehicle up to 18,000kgs or a vehicle with two axles

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17574 Level 3 Credits 7

Operate a rigid vehicle to meet the requirements for a full Class 2 driver licence

Class 4 Truck Licence
(1 Day, must hold learners licence)

Duration: 1 Day (8 Hours)

The Class 4 Licence allows you to drive a vehicle 18,000kg and over.

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17576 Level 3 Credits 7

Operate a rigid vehicle to meet the requirements for a full Class 4 driver licence

Class 4 Truck Licence (2 Day)

Duration: 2 Days (16 Hours)

The Class 4 Licence allows you to drive a vehicle 18,000kg and over.

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17576 Level 3 Credits 7

Operate a rigid vehicle to meet the requirements for a full Class 4 driver licence

Class 5 Truck Licence (2 Day, must hold learners licence)

Duration: 2 Days (16 Hours)

The Class 5 Licence allows you to drive a vehicle 25,000kg and over.

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17577 Level 3 Credits 7

Operate a combination vehicle to meet the requirements for a full Class 5 driver licence

Class 5 Truck Licence (3 Day)

Duration: 3 Days (24 Hours)

The Class 5 Licence allows you to drive a vehicle 25,000kg and over.

Unit Standard: 24089 Level 3 Credits 5

Demonstrate knowledge of fatigue management, work time, and driver logbook requirements

Unit Standard: 17577 Level 3 Credits 7

Operate a combination vehicle to meet the requirements for a full Class 5 driver licence

Dangerous Goods Endorsement and Refresher — Duration: 1 Day (8 Hours)

This course is available to anyone wishing to gain unit standard 16718 or refresh this unit standard which they already hold.

Unit Standard: 16718 Level 3 Credits 5

Demonstrate and apply knowledge of law and practice for the transport of Dangerous Goods by road

Transport - Load and Unload a Freight Vehicle — Duration: 1 Day (8 Hours)

This practical course helps your team learn the skills and correct loading techniques required to ensure goods vehicles are loaded and secured safely.

Unit Standard: 1753 Level 3 Credits 4

Load and unload a heavy goods vehicle

Wheels, Tracks & Rollers — Duration: 1 Day (8 Hours)

If you drive a special-type vehicle on the road that isn't a forklift, you must have a W, T or R endorsement on your driver licence.

Unit Standard: 16701 Level 3 Credits 4

Demonstrate knowledge and skills for driving on a road for endorsement W (wheels)

Unit Standard: 16702 Level 3 Credits 3

Demonstrate knowledge and skills for driving on a road for endorsement R (rollers)

Unit Standard: 16703 Level 3 Credits 3

Demonstrate knowledge and skills for driving on a road for endorsement T (tracks)

Class 2 Truck Driving Lesson — Duration: 1 Hour

Our Class 2 Truck Driving Lesson is perfect for beginners or anyone wanting extra confidence behind the wheel before sitting their licence test.

Class 4 Truck Driving Lesson — Duration: 1 Hour

Our Class 4 Truck Driving Lesson is ideal for drivers preparing to move into heavier rigid vehicles or those wanting hands-on, one-on-one driving practice before sitting their Class 4 licence.

Class 5 Truck Driving Lesson — Duration: 1 Hour

Our Class 2 Truck Driving Lesson is perfect for beginners or anyone wanting extra confidence behind the wheel before sitting their licence test.

Basic Trailer — Duration: 1 Day (8 Hours)

This course provides foundational skills and knowledge for safely loading, unloading, and securing loads on a basic trailer.

Unit Standard: 3471 Level 2 Credits 1

Load and unload a goods vehicle

Optional Additional Unit Standards

Unit Standard: 14516 Level 3 Credits 3

Describe the legal requirements and implications for loading and towing a simple light trailer

Verification of Competency Asssessments (VOC)

VOC assessments are commonly used to ensure workers remain competent, compliant, and capable of carrying out their duties safely.

Your workplace health and safety is important, but knowing where to start when assessing competency can be challenging.

At Safety 'n Action, we provide tailored Verification of Competency (VOC) assessments across your operation. We can also deliver additional training where needed and recommend suitable courses from our comprehensive range of health and safety programmes.

Our team works with you to identify the right approach for your business, ensuring your workforce is assessed against real-world conditions and current best practice.

Every organisation is different, which is why our VOC solutions are flexible and designed to fit your specific requirements.

View our most common VOC requests here, or speak to our team about your site requirements.

Online Booking Portal

Book, manage and track your training all in one place.

We've upgraded our online booking portal to make self-managing your organisation's health and safety training simpler than ever. Book courses, monitor attendee progress, and keep every record in one centralised platform built for busy teams who need training sorted, fast.

What you can do online:

- Book public or online courses, with your company and personal details pre-filled
- View your complete booking history and current booking status
- Add or update attendee details for your bookings, right up until the course starts
- Download certificates as soon as a course is complete
- Track eLearning progress in real time and get refresher reminders
- Manage multiple accounts from a single login, and export to excel for reporting
