

Fire Extinguisher Short Course

Learn how to evaluate fire scenarios and take the appropriate corrective action to stay safe

Fire Extinguisher Short Course

Learn how to evaluate fire scenarios and take the appropriate corrective action to stay safe.

This short course will provide you with an understanding of the basic principles around the physics, chemistry and behaviour of different fires, before demonstrating fire suppression methods, techniques and equipment. You will also carry out a series of practical scenarios, so that you and your team know exactly how to handle a real-life situation in the workplace and at home.

Key Learning Outcomes:

- ✓ Demonstrate knowledge around the basic principles of the chemistry and physics of fire
- ✓ Demonstrate knowledge relating to the classes of fire and fire suppression methods and techniques
- ✓ Select and implement a strategy to deal with a fire
