

**SAFETY^N
ACTION**

Breathing Apparatus Operational Refresher

Ensure your knowledge of using breathing apparatus to undertake operational duties is up to date with the latest industry standards

Breathing Apparatus Operational Refresher

Ensure your knowledge of using breathing apparatus to undertake operational duties is up to date with the latest industry standards.

This course will refresh your existing knowledge and use practical activities to reinforce your skills. You will also be updated on any new developments relating to workers required to undertake operational duties in potentially harmful non-respirable environments.

** If you did not complete your original training with Safety 'n Action then we may require evidence of competency*

Key Learning Outcomes:

- ✓ Demonstrate knowledge of safe operational use of a compressed air breathing apparatus (CABA)
- ✓ Understand how to prepare, test and recommission CABA equipment
- ✓ Wear and monitor a CABA
- ✓ Understand how to identify and manage hazards and risks associated with the use of a self-contained breathing apparatus in hazardous environments
- ✓ Safely implement an emergency procedure
