

**SAFETY^N
ACTION**

Breathing Apparatus Rescue Refresher

Ensure your knowledge of using breathing apparatus for operational and rescue activities, is up to date with the latest industry standards

Breathing Apparatus Rescue Refresher

Ensure your knowledge of using breathing apparatus for operational and rescue activities, is up to date with the latest industry standards.

This course will refresh your existing knowledge and use practical activities to reinforce your skills. You will also be updated on any new developments relating to workers required to undertake operational duties or emergency rescues, in potentially harmful non-respirable environments.

Please note that this course does not cover use of CABA for firefighting activities.

** If you did not complete your original training with Safety 'n Action then we may require evidence of competency*

Key Learning Outcomes:

- ✓ Demonstrate understanding of the safe operation of a compressed air breathing apparatus (CABA)
- ✓ Prepare, test and recommission CABA equipment
- ✓ Wear and monitor a CABA
- ✓ Implement emergency procedures and perform rescue applications
- ✓ Demonstrate knowledge of breathing apparatus and its effects on the physiology of the human body
- ✓ Wear the CABA in actual or practical simulated conditions
- ✓ Manage the CABA for safe use and survivability
- ✓ Shut down and recommission the CABA
