

Schools Health and Safety Essentials

Prepare yourself for future employment, with a comprehensive understanding of the latest health and safety regulations and the skills to identify and prevent harm in the workplace

Schools Health and Safety Essentials

Prepare yourself for future employment, with a comprehensive understanding of the latest health and safety regulations and the skills to identify and prevent harm in the workplace.

This course will ensure you are up to date with all the latest health and safety regulations, industry good practice and how they relate to risk management in the workplace and or job role. Through a series of interactive practical exercises you will also gain an understanding of the concepts, processes and procedures required to identify, control and monitor risk in the workplace.

Key Learning Outcomes:

- ✓ Demonstrate knowledge of workplace health and safety legislation
- ✓ Understand and apply safe work practices in the workplace
- ✓ Ability to identify, control and monitor risks in the workplace
- ✓ Understand how to describe the principles of health and safety risk assessment
- ✓ Application of health and safety risk assessment to a job role in accordance with regulatory requirements and industry good practice
