

Fire Extinguisher Webinar

Gain knowledge in the operation of different types of fire extinguishers and fire suppression techniques used in the workplace

Fire Extinguisher Webinar

Gain knowledge in the operation of different types of fire extinguishers and fire suppression techniques used in the workplace.

This course will provide you with an understanding of the different types of fire extinguishers and give you the practical skills to put out a fire using the correct equipment, whilst learning about new developments relating to effective fire suppression.

Key Learning Outcomes:

- ✓ Demonstrate knowledge of the basic principles of the physics and chemistry of fire
- ✓ Understand the fire classes and fire suppression techniques
- ✓ Select and implement a strategy to deal with fire

NOTE: This is hybrid training combining both a webinar (theory) training session and a practical training session. Your initial training is the webinar component. The practical portion of your training will be scheduled at a later date to complete the course.
