# Confined Space and Gas Detection Refresher Webinar

Refresh your knowledge and technical skills to effectively plan, observe and safely enter a confined space

# Confined Space and Gas Detection Refresher Webinar

Refresh your knowledge and technical skills to effectively plan, observe and safely enter a confined space. Theory based webinar training allows you to take part from any location.

This webinar refresher course will provide you with up to date skills and knowledge, as an entrant or observer, to identify the types of confined spaces and hazards and risks associated with working in a confined space. It will also reinforce your understanding of atmospheric testing and equipment, as well as the correct emergency procedures in the event of a rescue.

## Key Learning Outcomes:

- ✓ Identify hazards and controls within confined spaces
- ✓ Develop an emergency procedure plan for a confined space
- ✓ Complete required documentation for a confined space entry
- ✓ Demonstrate knowledge of confined spaces and their permit notification and implementation requirements
- ✓ Demonstrate knowledge of monitoring and confined space testing requirements
- ✓ Describe the responsibilities and duties of people entering; or conducting observation duties for a confined space
- ✓ Demonstrate knowledge of atmospheric testing in potentially hazardous environments

## CONFINED SPACE AND GAS DETECTION REFRESHER

### Refreshed unit standard listed (\*If currently held)

<b>17599</b>	Plan a confined space entry
<b>18426</b>	Demonstrate knowledge of hazards associated with confined spaces
<b>25510</b>	Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely
<b>Optional Extra Units:</b>	
<b>3058</b>	Perform gas tests for an energy and chemical plant)
<b>19207</b>	Work in a confined space in the infrastructure (Water) industry
<b>18037</b>	Plan a confined space entry in the electricity supply industry
<b>Course Duration</b>	6 Hours
<b>Availability</b>	✓ Online via webinar

*\* If you did not complete your original training with Safety 'n Action then we may require evidence of competency*
