

Confined Space and Gas Detection

Prepare yourself with the knowledge and technical skills to effectively plan, observe and safely enter a confined space

Confined Space and Gas Detection

Prepare yourself with the knowledge and technical skills to effectively plan, observe and safely enter a confined space.

This course will provide you with the skills and knowledge, as an entrant or observer, to identify the types of confined spaces and hazards and risks associated with working in a confined space. It will also cover the atmospheric testing and equipment required to establish a planned and safe entry, as well as the correct emergency procedures in the event of a rescue.

Key Learning Outcomes:

- ✓ Identify hazards and controls within confined spaces
- ✓ Develop an emergency procedure plan for a confined space
- ✓ Complete required documentation for a confined space entry
- ✓ Demonstrate knowledge of confined spaces and their permit notification and implementation requirements
- ✓ Demonstrate knowledge of monitoring and confined space testing requirements
- ✓ Describe the responsibilities and duties of people entering; or conducting observation duties for a confined space
- ✓ Demonstrate knowledge of atmospheric testing in potentially hazardous environments
- ✓ Conduct atmospheric tests and interpret and respond to atmospheric testing results

CONFINED SPACE AND GAS DETECTION

Unit 17599	Plan a confined space entry
Unit 18426	Demonstrate knowledge of hazards associated with confined spaces
Unit 25510	Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely
Optional Extra Units:	
Unit 3058	Perform gas tests for an energy and chemical plant)
Unit 19207	Work in a confined space in the infrastructure (Water) industry
Unit 18037	Plan a confined space entry in the electricity supply industry
Attendance Prerequisites	<ul style="list-style-type: none"> • Hazard and Risk Management is recommended • Permit Receiver and Issuer is recommended
Reassessment	Refresher course available
Course Duration	Two Day (16 hours)
Availability	<ul style="list-style-type: none"> ✓ Nationwide at one of our training centres ✓ At your own site or workplace

If you use a harness while working in a confined space, we highly recommend you are appropriately trained in using a harness. Please book onto a harness safety or height safety introduction course to gain the unit standard 23229 Use a safety harness for personal fall prevention when working at height.
