Height Safety

Understand the legal requirements, systems and procedures to conduct work safely at height

Height Safety

Understand the legal requirements, systems and procedures to conduct work safely at height.

This course will guide you through the selection and use of different types of fall arrest equipment. It involves a number of practical scenarios including fall arrest, work positioning, restraint systems and developing a rescue plan. We also cover hazards associated with scaffolds, mobile elevated work platforms, ladders, guardrails, walkways, ramps and stairways.

HEIGHT SAFETY
