Construction Site Access

Gain knowledge of health and safety legislation as it applies to building and construction sites. Apply health and safety procedures under supervision for a building or construction site.

TRAIN ONLINE OR IN PERSON

Construction Site Access

Gain knowledge of health and safety legislation as it applies to building and construction sites. Apply health and safety procedures under supervision for a building or construction site.

This course will quickly upskill workers and enable them to behave safely on building and construction sites. It gives an understanding of health and safety legislation while focusing on signage, personal protective equipment (PPE) and relevant health and safety procedure.

This course is suitable for any person required to enter and work on a building or construction site. It offers a nationally recognised NZQA unit standard.

Key Learning Outcomes:

- ✓ Understand health and safety procedures
- ✓ Identify personal protective equipment for the workplace and its correct use
- ✓ Identify worksite specific health and safety procedures
- ✓ Awareness of hazard identification relating to hazards
- ✓ Awareness of what to do in an emergency
