

Schools Essentials in Health and Safety

Gain the knowledge to assist you with putting good Health and Safety practices into motion from day 1. Learn your roles and responsibilities as a worker, as well as how to complete a risk assessment and JSA.

Schools Essentials in Health and Safety

Gain the knowledge to assist you with putting good Health and Safety practices into motion from day 1. Learn your roles and responsibilities as a worker, as well as how to complete a risk assessment and JSA.

People credited with this unit standard are able to assist with identification of hazards and controls; to monitor adherence to safety work practices for work taking place in hazardous environments; and to respond in accordance with the defined site emergency response plan should this be required.

Key Learning Outcomes:

- ✓ Identify and describe legislative rights and responsibilities for workplace health and safety
- ✓ Describe the systems approach to workplace health and safety; explain how risks and hazards are defined in the HSWA.
- ✓ Describe the principles of health and safety risk assessment
- ✓ Apply health and safety risk assessment to a job role in accordance with regulatory requirements and industry good practice
- ✓ Prepare a work method statement; and undertake a job safety analysis
