At our local training centre
At your own site or workplace

Overview

This course teaches the knowledge, skills, and attributes for all essential areas of the unit standards covered in this course, enabling the individual to drive a tractor effectively and safely in varied terrain.

Prerequisites

Successful completion of unit standard 19044 (describe the legal requirements and occupational hazards associated with tractor use - covered in the course).

No licence is required if 100% of use is on private property with no public access. Where public land is to be accessed a minimum of a full class 1 licence and registration is required.

Course Content

- ✓ Describe the legal requirements for tractors and tractor users on both private property and on public roads
- ✓ Drive a tractor on hilly terrain
- ✓ Describe occupational hazards associated with tractor use
- ✓ Identify factors that affect tractor stability
- ✓ Check and service a wheel tractor and implement before use
- ✓ Attach an implement to a tractor
- ✓ Drive a wheel tractor and implement safely over flat terrain
- ✓ Detach an implement from a tractor

Unit Standards

UNIT 19044 Describe the legal requirements and occupational hazards associated with tractor use.

UNIT 31913 Operate a basic tractor on flat terrain under close supervision.

UNIT 31914 Attach and detach a power take off driven 3 point linkage mounted implement to a basic tractor under close supervision.
