TRAINING**

Capacity

8 Attendees

1/2 Day workshop

4 Hours

Locations

At our local training centre
At your own site or workplace

Overview

This course will refresh your existing knowledge and use practical activities to reinforce your skills. You will also be updated on any new developments relating to workers required to undertake operational duties in potentially harmful nonrespirable environments.

Prerequisites

Students need to have 3 months of work experience in the industry prior to doing the course. This course is both physically and psychologically demanding. Some medical conditions will preclude attendance. A physical readiness questionnaire must be completed as part of the booking process. Facial hair must be shaved.

Course Content

- ✓ Demonstrate knowledge of safe operational use of a compressed air breathing apparatus (CABA)
- ✓ Understand how to prepare, test and recommission CABA equipment
- ✓ Wear and monitor a CABA
- ✓ Understand how to identify and manage risks and hazards associated to the use of self-contained breathing apparatus and hazardous environments
- ✓ Safely implement an emergency procedure

Unit Standards

Non-unit Standard Course
