Half Day Workshop

4 Hours

Locations

At our local training centre
At your own site or workplace

Overview

The HARM Refresher course reassesses learners' existing competency in identifying workplace hazards, understanding the legislative framework, assessing risk, and applying appropriate control measures. Participants revisit key concepts from their original unit standards and demonstrate continued competence through practical and written reassessments.

Course Content

- ✓ Describe the principles of health and safety risk assessment
- ✓ Apply health and safety risk assessment to a job role in accordance with regulatory requirements and industry good practice
- ✓ Identify and describe legislative rights and responsibilities for workplace health and safety
- ✓ Describe the systems approach to workplace health and safety
- ✓ Explain how risks and hazards are defined in the HSWA

Unit Standard

30265 Operational knowledge of routine health and safety risk management
497
