Certified Handler Preparation

Prepare to become a workplace certified handler

SAFETY'N ACTION AXIOM TRAINING

Capacity
12 Attendees

1 Day Workshop
8 Hours

Locations
At our local training centre
At your own site or workplace

Overview

This course provides learners with the knowledge required to fulfil the role of a Certified Handler for hazardous substances in the workplace. Participants will develop an understanding of hazardous substance classifications, associated risks and controls, legislative requirements, safe handling and storage practices, emergency response procedures, and the responsibilities of a Certified Handler under New Zealand health and safety legislation. The programme is designed for workers who manage or use highly hazardous substances and need the underpinning knowledge to ensure compliance, minimise risk, and maintain a safe working environment.

Prerequisites

31290 – Demonstrate knowledge of the safe management and potential adverse effects of hazardous substances in the workplace or demonstrate equivalent knowledge and skills
