At your own site or workplace

Overview

This course will guide you through the selection and inspection of various fall arrest systems and relevant ropes and knots. There are also practical scenarios to ensure you understand the use, installation and disestablishment of proprietary height safety systems, anchor points, work positioning, restraint systems and developing and implementing a rescue plan.

Prerequisite:

UNIT 23229 Use, install and disestablish temporary proprietary fall arrest systems when working at height.

Course Content

- ✓ Identify anchor points and prepare to install a temporary proprietary height safety system.
- ✓ Install horizontal and vertical temporary proprietary height safety systems.
- ✓ Use temporary proprietary height safety systems.
- ✓ Disestablish temporary proprietary height safety systems.

Unit Standard

UNIT 15757 Use, install and disestablish temporary proprietary fall arrest systems when working at height.
