

Verification of Competency Work Assist Vehicle(WAVE)

VOC assessments are delivered one-on-one with a trainer, allowing operators to be assessed individually without taking entire teams off-site. This flexible approach means staff can rotate through the assessment while maintaining normal operations.

Overview

VOC field assessments are designed to facilitate the ongoing assessment of trained individuals in their workplace environment. Completing these competency assessments ensures that correct procedures are being used in the workplace.

Course Content

- ✓ Recognising workplace hazards, load stability risks, and safe handling practices.
- ✓ Conducting thorough pre-start checks to ensure the machine is safe and ready for use.
- ✓ Managing heavy loads with an understanding of load limits, centre of gravity, and environmental factors.
- ✓ Safe machine operation, positioning, and maintaining load control in busy work areas
- ✓ Applying knowledge in line with current procedures to maintain industry competency.
