Basic Trailer

Safety and compliant practices for loading, unloading, and securing trailer loads.

SAFETY 'N ACTION **AXIOM TRAINING**

Capacity
10 Attendees

Duration
8 Hours

Locations
At our local training centre
At your own site or workplace
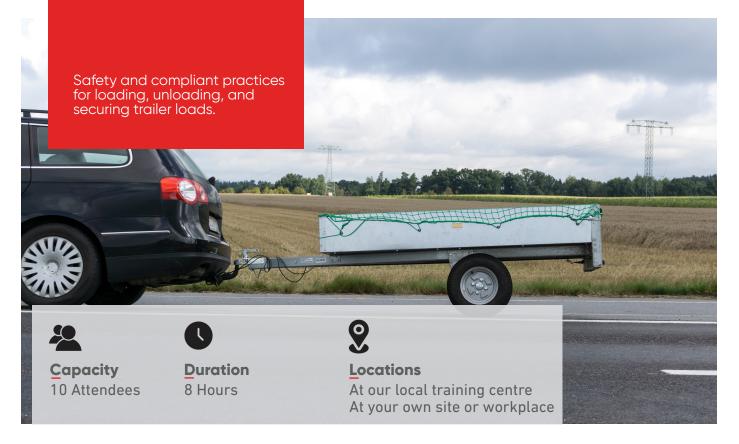

Overview

This course provides foundational skills and knowledge for safely loading, unloading, and securing loads on a basic trailer. It covers hazard management, load restraint techniques, and regulatory requirements aligned with NZQA Unit Standard 3471, with the option to include NZQA Unit Standard 14516. Training is delivered face-to-face and incorporates practical application to ensure learners can perform load-handling tasks safely and competently in the workplace.

Course Content

- Identify and apply safe practices for loading and unloading a goods vehicle.
- Prepare a trailer and vehicle for safe loading operations.
- Secure loads using appropriate restraint methods.
- Identify hazards and manage risks associated with trailer operation and load security.
- (If US 14516 included) Demonstrate knowledge of regulations, equipment, and safety requirements related to load restraint.

Unit Standards

UNIT 3471   Load and Unload a goods Vehicle
