

# Health and Safety at Work Seminar

**SAFETY<sup>™</sup>  
ACTION**

**AXIOM  
TRAINING**

Use this seminar to seek clarification around any concerns or gaps and identify recommended solutions with our health and safety expert.

#### **Capacity**

12 attendees

#### **Duration**

Half Day (4 Hours)

#### **Locations**

At our local training centre  
At your own site or workplace

### **Overview**

The seminar provides a foundation for you to create a plan for addressing improvements and change within your organisation, ensuring compliance with the Act, as well as reviewing latest case studies to demonstrate commercial risk. We will also cover relevant terminologies, such as PCBU, Officer and Worker, to clarify the responsibilities and duties of these groups or individuals.

### **Prerequisites**

Hazard and Risk Management is recommended

### **Course Content**

- ✓ Overview of the Health and Safety at Work Act (2015)
- ✓ Gain understanding of regulatory agencies
- ✓ Gain understanding of the new legislation
- ✓ Understanding of terminology used
- ✓ Understanding of penalties
- ✓ Overview on Worker Participation and Engagement, Health and Safety Representatives and Health and Safety Committees responsibilities
