New Zealand's Leader in Health and Safety Training

0800 222 388 | safetynaction.co.nz

Why Choose Our Gateway Programmes

**GET READY TO WORK.
ACHIEVABLE NZQA CREDITS.**

Prepare your students for a safe and healthy future in the workplace.

Safety 'n Action is New Zealand's leader in health and safety training. We have a proven track record with training in school, training over 4000 high school Gateway students every year. Health and safety competence is a critical skill for entering the workforce and our training will support a student's chances of securing a job.

YOUR TRAINERS

We have 60 trainers who combine technical expertise with a passion for delivering high quality and professional training. All trainers are accredited assessors and hold adult education qualifications along with a number of safety and relevant industry qualifications.

YOUR CONVENIENCE

Our training centres are nationwide, providing students with the opportunity to step into a simulated workplace, or alternatively, we can come to your location.

Schools Confined Space - Entrant Only

Acquire a comprehensive understanding of the hazards and controls used when working with confined spaces.

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

Capacity

12 Attendees

1 Day Training

8 Hours

Locations

At our local training centre
At your school

Overview

This course will provide you with knowledge of the legislative requirements and an understanding of how to identify the associated hazards, applicable control measures and monitoring and testing requirements when working with confined spaces. It will also cover the responsibilities and duties of people entering or conducting observation duties.

Course Content

- ✓ Recognise the legislative requirements associated with working in a confined space
- ✓ Assess the level of harm from hazards and determine the suitable controls needed
- ✓ Demonstrate knowledge of gases, their causes, their harmful effects and correctly select and explain the purpose and operation of gas detectors including the safety checks and certificates required
- ✓ Understand the responsibilities and duties of people entering confined spaces or conducting observation duties for confined spaces
- ✓ Determine the legal documentation requirements for the entry, define the necessary considerations on an entry permit form, complete an entry permit form and all additional relevant documentation

Unit Standards

UNIT 18426

Demonstrate knowledge of hazards associated with confined space

Level 3, 4 Credits.

Overview

Participants in this training will learn methods of hazard identification in accordance with the organisations' procedures, identify PPE for the worksite and describe its correct use. Participants will also learn the skill to effectively seek out and learn the accident notification and workplace emergency procedures in line with the workplace or worksite they are entering.

Course Content

- ✓ Understand health and safety procedures
- ✓ Identify personal protective equipment for the workplace and its correct use
- ✓ Identify worksite specific health and safety procedures
- ✓ Awareness of hazard identification relating to hazards
- ✓ Awareness of what to do in an emergency

Unit Standards

UNIT 21209

Demonstrate knowledge of and carry out health and safety procedures for a building construction site.

Level 2, 4 Credits.

Schools Heights Safety

Understand how to effectively use height safety and safety harness equipment

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

Capacity

12 Attendees

1 Day Training

8 Hours

Locations

At our local training centre
At your school

Overview

This course will provide you with the skills to identify the correct equipment, carry out pre-use checks and learn how to use a harness in conjunction with other height safety equipment. Also, understand the hazard and risk management process, specifically hazards associated with height systems and ascertain the importance of having a rescue plan. We cover hazards associated to working at height and with scaffolds, mobile elevated work platforms, ladders, ramps and stairways.

Course Content

- ✓ Explain the legislative requirements and systems used for working at heights
- ✓ Demonstrate knowledge of hazards associated with wearing a safety harness and associated equipment
- ✓ Demonstrate knowledge of safety harnesses and associated systems and equipment
- ✓ Check and fit a safety harness system
- ✓ Use a safety harness system where a fall hazard exists at height
- ✓ Identify suitable height work equipment and suitable anchor points for fall and arrest systems
- ✓ Demonstrate knowledge of a rescue plan to be activated in the event of a fall

Unit Standards

UNIT 17600	Explain safe work practices for working at heights (completed online)	Level 3, 3 Credits
UNIT 23229	Use a safety harness for personal fall prevention when working at height	Level 3, 4 Credits

Open Public Courses

Students can join our public open courses to gain job ready skills in preparation for their future. Conditions apply.

Confined Space and Gas Detection

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

Prepare yourself with the knowledge and technical skills to effectively plan, observe and safely enter a confined space.

Capacity

12 attendees

Duration

2 Days (16 Hours)

Locations

At our local training centre
At your own site or workplace

Overview

This course will provide you with the skills and knowledge, as an entrant or observer, to identify the types of confined spaces and hazards and risks associated with working in a confined space. It will also cover the atmospheric testing and equipment required to establish a planned and safe entry, as well as the correct emergency procedures in the event of a rescue.

Prerequisites

Students need to have 3 months of work experience in the industry prior to doing the course.

Course Content

- ✓ Identify hazards and controls within confined spaces
- ✓ Develop an emergency procedure plan for a confined space
- ✓ Complete required documentation for a confined space entry
- ✓ Demonstrate knowledge of confined spaces and their permit notification and implementation requirements
- ✓ Demonstrate knowledge of monitoring and confined space testing requirements
- ✓ Describe the responsibilities and duties of people entering; or conducting observation duties for a confined space
- ✓ Demonstrate knowledge of atmospheric testing in potentially hazardous environments
- ✓ Conduct atmospheric tests and interpret and respond to atmospheric testing results

Unit Standards

- UNIT 17599** Plan a confined space entry
- UNIT 18426** Demonstrate knowledge of hazards associated with confined spaces
- UNIT 25510** Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely

Mobile Elevated Work Platform

**SAFETYTM
ACTION**

**AXIOM
TRAINING**

Understand the legal obligations, pre-check requirements and skills needed to safely operate a Mobile Elevating Work Platform.

Capacity
8 Attendees

Duration
8 Hours

Locations
At our local training centre
At your own site or workplace

Overview

This course ensures you understand the relevant guidelines, regulations and Codes of Practice to safely assess and operate a MEWP. It also includes a series of practical exercises where you will apply and test your knowledge of hazards, risk management and operational skills.

Only two machine combinations can be trained in one day. You will need to specify which combination you require upon booking. The machine options are as follows:

Scissor Lift, Self-Propelled Boom, Truck Mounted Boom, Trailer Mounted and Vertical Lift.

Prerequisites

If only conducting a practical machine assessment you must already hold unit standard 23966

Course Content

- ✓ Demonstrate knowledge of types of MEWP's
- ✓ Their suitability for purpose
- ✓ Assess the worksite and prepare to use the relevant MEWP
- ✓ How to identify and report faults and damage for the MEWP
- ✓ How to shut down the MEWP
- ✓ Practical reinforcement of the knowledge and skills obtained during the training
- ✓ Legislative requirements in relation to code of practice and the use of MEWP's
- ✓ Safety features

Unit Standards

23966 Describe types of elevating work platforms (EWPs) and legislative requirements for their use

23960 Assess the worksite, prepare and operate a scissor lift

23961 Assess the worksite, prepare and operate a truck-mounted EWP

23962 Assess the worksite, prepare and operate a self-propelled boom lift

23963 Assess the worksite, prepare and operate a trailer-mounted EWP

23964 Assess the worksite, prepare and operate a vertical lift

What others have to say

The Safety 'n Action trainer was absolutely amazing, talking to the Year 10 students at Awatapu College. His health and safety talk was perfectly targeted and pitched bang on for young people. I think he has an amazing ability to work with students.

The trainer showed a fabulous understanding of the school learning environment and curriculum and related brilliantly to our students including those with barriers to learning.

Having used Safety 'n Action for a number of years now, I would like to let you know that the course is a pleasure to attend. The students love the trainer's vibrancy and were engaged throughout the day.

The trainer has done a wonderful job in helping us students and has made us understand more about the course. Made the course fun and enjoyable - thank you.

I have really enjoyed doing this course. At first I was nervous and scared but I was supported and guided well. You're an amazing teacher.

INTRODUCING HEATHER GAGE

As our Education and Gateway health and safety sales specialist, Heather Latham connects high schools, universities and other education providers with Safety 'n Action programmes - and in doing so plays an integral role in shaping our future workforce.

"Being able to play a part in growing students' confidence and competence is super rewarding," says Heather who has eight years of sales experience within the PTE (Private Training Establishments) sector.

"I love being able to connect and educate advisors on how we can work together to ensure our rangatahi have meaningful experiences and qualifications before they break into the workforce."

Safety 'n Action's school's training equips young people with vital skills for the future, and Heather is delighted to be helping lay these foundations.

"I am incredibly passionate about education and believe that everyone has the right to access it. It is through education that people can find their true passions and their 'why'."

Contact Heather today to discuss your needs.
