Certificate of Approval
(Blended Learning)

Get certified to protect New Zealand's safety with a Certificate of Approval

Certificate of Approval

(Blended Learning)

The Certificate of Approval (COA) training course is specifically tailored to offer a comprehensive understanding of the New Zealand Security industry, COA process, and professional standards expected of security personnel. This in-depth training encompasses three NZQA unit standards: US 27364, US 27360, and US 27361, providing a solid foundation in essential knowledge and skills.

Throughout the course, you will delve into licensing requirements, relevant legislation, and critical responsibilities of security officers. A key component focuses on the COA application process, documentation, and record-keeping practices, including incident and hazard reports, and removal registers.

Emphasising effective communication, our training covers the use of brevity codes for clear and efficient information exchange in high-pressure or time-sensitive situations.

Students must complete theory content online before booking 1 day face-to-face practical.

Designed for individuals seeking to establish or enhance their career in the security industry, this course is essential for acquiring or renewing a COA licence in New Zealand. Completing our training equips you to embody professionalism and integrity, setting the standard for excellence in the security sector.

Key Learning Outcomes:

- Demonstrate knowledge of the security industry in the pre-employment context.
- Describe conflict management in a security context.
- Manage conflict situations in a security context.
